Harlan Paige,	11.16	330.59
Balance unpaid,		$269.41

C. FRANK PAGE,
Treasurer.

GILMANTON, N. H., February 7, 1919.

I have examined the foregoing accounts and find them correctly cast and properly vouched.

A. L. DURGIN,
Auditor.

REPORT OF THE SUPERINTENDENT.

To the School Board of the School District of Gilmanton:

I herewith submit to you and through you to the citizens of Gilmanton my fourth annual report as superintendent of schools.

The school year which closed in June last was a fairly successful one in spite of the fact that the work was very much interrupted during the winter term because of the very severe weather. Of course it is impossible to accomplish in a thirty week year the work that may be done in a thirty-six week year which has now come to be recognized as the standard year. Our total enrollment during that year was 188. The average membership was 151 and the average attendance was 135. Eight schools were in session during the year besides the High School. During the spring term the Guinea Ridge School was closed and the children transported to the Sanborn School which had not been opened before for several years.

It is needless to say that the present school year has not been altogether satisfactory. The epidemic of influenza closed many schools in the fall for two or more weeks and the unprecedented amount of sickness has interfered greatly with the attendance. However, this same condition has prevailed everywhere.

I speak elsewhere of our experience in the fall in connection with filling the teaching positions at the High School. We had further difficulty in finding a permanent teacher for the Sanborn School and this school was closed several weeks simply because there was no teacher to be had.

You will notice that there has been an increase in the salaries paid the teachers. This was inevitable. Even with the increase our salaries are far below the average and the trend everywhere is upward. The teacher like the rest of us must have a living wage. Those to whom we entrust

our children and of whom we expect so much in the matter of general intelligence and character ought to be well paid.

The following is the list of teachers for the winter term and the salaries paid:

School.	Teacher.	Salary per week.
Iron Works,	Florence M. Durgin,	$12.00
Sanborn,	Daisy Weeks,	9.00
Rogers,	Mollie Margeson,	8.00
Corner,	Ruth Weston,	12.50
Osgood,	Mildred Grant,	9.00
Kelley's Corner,	Ruth Kelley,	9.00
Potter,	Emma Kelley,	10.00
Smith Meeting House,	Fannie Osborne,	9.00

Mrs. Alice Morgan who had taught for us several years gave up her work at the Kelley's Corner School at the close of the fall term. Mrs. Morgan always had a deep and thoughtful interest in her school. She always gave to her school her best and that was of a high order. We were sorry to lose her services.

After considerable deliberation the School Board decided to open the Osgood School rather than the Jones' Mills School in the fall as it appeared that the children in those communities would be better accommodated by this arrangement. The plan has worked out well so far.

Mr. A. L. Sturtevant, who had been principal of our High School for two years, resigned in June to enter the army. Miss Marion C. Boorn, the assistant, also resigned. Search was made all summer long for teachers to fill these vacancies. We were handicapped in several ways. The salaries we could offer were low, the courses we gave in the school demanded specially trained teachers, and there was a great scarcity of teachers of all types. We finally secured Miss Eleanor Appleton, a graduate of Framingham Normal School, who had special training in domestic arts, as an assistant. Our search for a principal who could handle the agricultural subjects proved fruitless until a day or two be-

fore the date for opening when a man was found who would consider the position at a salary of $1,700 a year. A majority of the board did not feel that they would be justified in paying so large a salary. Miss Appleton opened the school and continued a week. We had an attendance of ten. As no principal was available she declined to remain longer and the school was closed. Of the children who attended last year two are attending the Pittsfield High School, two are attending Tilton Seminary, and five are attending the Corner School where we have been trying to do a little High School work.

The school warrant contains an article in relation to the High School. A high school once established by the vote of a district may be discontinued only by the superior court on petition of the School Board. The School Board seeks an expression of the voters of the district in this matter. In case they are given no instructions to the contrary they will of course open the school another year if they find it possible. This is a matter of much importance to the town. A school properly maintained, commanding the interest and backing of all parts of the town is certainly a large asset to the life of the town.

The school warrant also contains an article relative to medical inspection. The modern school will more and more concern itself with the physical welfare of the boys and girls. We have long known that a sound body was the only proper dwelling place for a sound mind. We have in the past not concerned ourselves over much about the body. There has recently come an awakening. The up-to-date school is seeing to it that the boys and girls are not only taught the great laws of health and right living but are taught to live them, that their health is safeguarded in all possible ways, and that they are properly housed when they are at school in a sanitary building. Now the best agency to secure these results is medical inspection. The law making body of the state thinks so well of this that it obliges every district which has not adopted medical inspection to vote on it.

The only considerable repairs which have been made this

year have been confined to the Potter School building which was painted. Although this has not been a favorable year for any construction work I do not believe it good policy to neglect these buildings. They practically all need attention in minor matters. Furthermore would it not be the right thing to select one building and put it into the best possible up-to-date condition, putting in a proper closet, and giving attention to correct lighting and heating? It would cost something but everything worth while costs something. I would suggest also that a chemical kaustine closet be put in at the Iron Works. That earth closet will never be sanitary nor satisfactory. Then, too, an appropriation for cleaning up and grading that school yard would be money well spent.

You will recall that appropriations were made at the school meeting a year ago to cover the cost of maintaining the schools through the year ending August 31 next. It was expected of course that the High School would be open and a certain allowance was made for maintaining that. Inasmuch as we have not been to that expense this year we ought to have a considerable balance at the end of the year in spite of the fact that we must now pay High School tuition and that teachers' salaries and all school supplies have increased in cost materially. As near as I can estimate we shall have a balance. In making the appropriations at this school meeting we should keep in mind that they are being made for the year beginning September 1 next.

In November Governor-elect Bartlett appointed a committee to make a study of the educational system of the state. The Legislature now has under consideration a bill which embodies the recommendations of that committee. It aims to standardize the schools of the state and to equalize school privileges. The bill discloses a keen appreciation of present day needs and possibilities.

I wish to express to the School Board and to the teachers my appreciation of their co-operation and courtesy.

Respectfully submitted,

CHANNING T. SANBORN.

STATISTICAL TABLE.

For the Year Ending in June, 1918.

School.	Teachers.	Salary per month.	Number weeks.	Total enrollment.	Average membership.	Per cent. attendance.	Number tardinesses.
High	A. L. Sturtevant, Principal Marion C. Boorn, Assistant	$100 00 55 56	36	24	20	88	123
